### I. Authority

By the action of the Board of Regents of April 22, 1978, and as amended on August 1, 2003, and pursuant to the authority vested in it by chapter 164.975 of the Kentucky Revised Statutes, the following regulations were adopted to regulate and control motor vehicle traffic and parking facilities on the Eastern Kentucky University campus.

### II. Purpose

The following regulations are established to ensure the proper maintenance, control, and maximum equitable utilization of all parking facilities by valid parking permit holders

### III. Parking Permit Eligibility

- All employees and student vehicles occupying University parking facilities must register their vehicle(s). Each employee or student may apply for one permit only. When properly registered, the vehicle license plate becomes the parking permit for the vehicle.
- To be eligible to acquire and display a parking permit, and employee or student must:
  - Possess a valid operator's license for the type of vehicle to be registered.
  - Only register vehicles owned by the individual or a member of their immediate family. The Director of Parking and Transportation Services may waive this requirement when the owner of a vehicle has some other definable relationship to the student.
  - Display a valid license plate on the vehicle to be registered.

### VI. Students may not use employee permits. Those Employees that wish to have their vehicles registered as a student vehicle for use by a member of their family must have special permission from the Director of Parking and Transportation.

### V. Parking Classifications and Hours of Enforcement

Eastern Kentucky University provides parking as follows signage at parking lot entrances or on the roadways within the confines of campus

- Parking is prohibited at all times on the grass or on any other areas where parking would mar the landscape of the campus, create a safety hazard, or interfere with the use of University facilities.
- Where parking areas are clearly outlined, occupants must observe the confines of each space. Only one vehicle is permitted in each space except for motorcycles.
- The responsibility for finding a legal parking space rests with the vehicle operator. **Lack of space is not considered a valid excuse for violation of these regulations. A permit does not guarantee parking in any specific lot or area.**
- Handwritten or typed notes of any type will not be honored as valid University parking permit.** In the event your vehicle has become disabled, you must call EKU Parking or EKU Police Department immediately and give location, make, model, and license plate number of the disabled. An alert will be left on your parking account allowing you time to get your vehicle fixed and moved. If the vehicle is disabled in the roadway, blocking traffic or creating a safety hazard it will need to be moved or towed immediately.
- Eastern Kentucky University reserves the right to restrict parking for special purposes or events.
- Colors are used on curbs and lot surfaces as described below:
  -  Yellow curbs mean no parking anytime.
  -  Red curbs mean fire lane, no parking anytime.
  -  Blue curbs mean accessible parking only.
  -  White lines on a lot surface mark the confines of parking spaces.
- The parking of any vehicle for the purpose of temporary living or storage is prohibited unless allowed by specific university policy, procedure, or regulation.
- Because of the need to provide required maintenance and repair to the parking facilities, the parking of vehicles over 24 hours is prohibited during semester breaks without special permission from the Director of Parking and Transportation. All-year halls are exempt from this requirement.

- No idling. All vehicles should be turned off when not in use or when the driver leaves the vehicle for any length of time. Equipment should not be left idling more than 1 minute and should be turned off unless doing so would hurt its operation.

#### Exceptions include:

- Vehicles at job sites requiring the use of emergency lights or other powered accessories to accomplish their assignment.
  - Division of Public Safety vehicles are exempt during emergency and training situations.
  - Inclement weather situations where the supervisor authorizes the use of the vehicle/equipment heater-defroster for the work crew's comfort when the temperature is below freezing or over 90 degrees. In these situations vehicles may idle for 5 minutes for heating/cooling. At no time should the vehicle be left unattended.
- VI. The Parking Office must be informed of new vehicle information when a registered vehicle is replaced or the license plate is changed. Changes should be made through your Nupark account.**
- VII. Abandoned Vehicles and Safety Hazards**
- Vehicles not properly displaying a valid vehicle license plate or vehicles which are inoperable because of missing or damaged parts will be considered as abandoned and subject to immediate tow at owner's expense.
  - Vehicles which have been impounded and not claimed will be considered as abandoned and will be disposed of in accordance with KRS 189.751.
  - Vehicles which constitutes a safety hazard to the University community will be removed from the campus at the owner's expense.

### VIII. Penalties

The following monetary penalties are levied for the specific violations listed below: **All tickets can be paid on your NuPark account for the first 15 days. After 15 days they will be transferred to your student account and may be paid on EKU direct, or to the Student Accounting Office in Whitlock room 210.**

- University employees and students with outstanding parking fines may not be eligible to register or receive subsequent parking permits until the delinquent fines are paid.
- University employees and students who receive five or more citations in an academic year may be subject to university sanctions.
